

OPTICAL MODE

O Open

Greet each Patient promptly and professionally for the best Patient experience.

P Probe

Ask open-ended questions to understand the Patient's needs and concerns.

T Tune In and Take Notice

Actively take notice of what Patients are saying to provide better solutions to their needs.

I Interpret

Understand Patients' concerns through product solutions and customer service that makes them feel special.

C Create Awareness and Present Options

Educate Patients about product options and features that meet their needs.

A Ask for the Sale

Always close communication with the Patient by asking for the sale.

L Lasting Impression

Follow up with the Patient, do the things you say you will do, and provide world-class service.

SITUATION

During their eye exam, the patient has no complaints about their lens-wearing experience. However, when asked if they can wear their lenses as long as they would like to, the patient responds, "They get a little dry when I drive home from work."

SOLUTIONS

Contact lens solution can impact wettability and comfort. With a simple change of solution, many patients can wear their lenses to the end of their day.

OPTI-FREE® PureMoist® MPDS is the only solution with HydraGlyde® Moisture Matrix, which provides comfort and moisture from insertion to removal.

HOME OFFICE NOTES:

NEW PRODUCT

OPTI-FREE®
puremoist.
MULTI-PURPOSE DISINFECTING SOLUTION
