

VISION-EASE LENS WORLDWIDE

Dear Partner Doctor-

We at [Vision-Ease Lens](#) are very proud to be a supplier of ophthalmic lenses to both Wal-Mart Vision Center and SAM'S CLUB Optical.

Vision-Ease Lens Facts:

- Founded in 1930 in St. Cloud, MN, we currently maintain 2 facilities in Minnesota as well as a manufacturing facility in Indonesia, plus distribution and sales offices covering Canada, Latin America, Western Europe and parts of Asia.
- One of only a few suppliers of ophthalmic lenses that is an American owned and American based company.
- [A recognized leader](#) in polycarbonate lenses, Vision-Ease Lens was the first major company to produce many lens styles designed specifically for polycarbonate material.
- [Best Technology](#) in polarized lenses, our Coppertone polycarbonate polarized lenses utilize proprietary technology with 10 different patents.

We're helping to reduce the large carbon footprint a small lens can make.

Vision-Ease Lens Products:

- [Coppertone polarized lenses](#): As the leader in polarized technology and innovation, we bring you Coppertone polarized lenses. Coppertone polarized lenses provide your patients with a prescription sunglass lens that offers more high energy visible light protection in addition to blocking 100% of UVA and UVB rays and 97% or more of reflected glare.

Meets AOA specifications for blockage of UVA and UVB rays.

The Skin Cancer Foundation recommends this product as an effective UV filter for the eyes and surrounding skin.

Coppertone Lenses were awarded the award of excellence for best lenses or material in 2009.

- Continua® & Tegra® polycarbonate lenses: Vision-Ease Lens supplies the most complete range of clear polycarbonate lenses to the optical industry, including several exclusive styles.

Vision-Ease Lens Service and Support:

- Collateral materials are offered free of charge to Wal-Mart and SAM'S CLUB partner doctors. For more information please contact us at 1-800-328-3449 or visit www.vision-ease.com.
